

**Merry Christmas
and a
Happy New Year 2010**

Respected São-Brasenses,
My friends,

I wish you Happy holidays, with votes of a Holy and Happy Christmas!

That this festive season brings you all the good, filled of those moments that gives Christmas the most special time of the year: family meeting, sharing and conviviality with friends, the fraternal spirit, peace and hope in a better world, that we must start to construct since now, in the world of each one of us!

I wish to leave a special message for all those that will not be able to live this Christmas as they would desire, for all those who are sick or for another reason will not be able to pass this festive season in the tranquility of their home. For all of you, votes of better days with much hope and confidence in the future.

To all the immigrant community of our district and to all that, in this Christmas, will be far away from their home and family, I would like to address a hopeful and comfort message, wishing that they will feel at home, in this land that is also Your Land.

For all são-brasenses, who lived all around the world, and that in this Christmas return to their home, I give a friendly hug and a message filled with confidence and happiness, with votes of a brightful future.

For the new year of 2010, on behalf of the City of São Brás de Alportel, I wish you all my sincere votes of Happiness, Peace and Health!

For the City Council, this will be one more year of hard work and challenges, in the fulfilment of this great project of Development and Quality of Life for São Brás de Alportel.

We live difficult times, with an unfavourable economical conjuncture, that requires an extra effort and new social answers.

Solidarity, employment and economical development are definitely the priority areas of our work, along with a set of fundamental projects for our city.

We want to continue to answer the Challenges of the Future, with Hope and Happiness for all!

Happy holidays!

December of 2009

The President of the City-Hall

António Paulo Jacinto Eusébio
